TRY TO EVADE PENALTY ON TECHNICALITY.

Attorneys For Defense Spring a Surprise on the Court, But It Did Not Work.

Cleveland Plain Dealer: A novel deense has been made in the case of the three Canton Greeks who are charged with mutilating money of the United

It is claimed that the prisoners would split \$1 and \$5 bills and paste half of a \$5 bills against half of a \$1 bill and pass the mutilated note for \$5. Each investment of \$6 would give them \$10, a net profit of \$4, and a chance to go to the penitentiary.

The trial of the three prisoners was begun before Judge Tayler and a jury in the United States district court yesterday afternoon. The case is being conducted by United States District Attorney Sullivan. Most of the evidence was obtained and the arrests were made by Secret Service Agent P. C. Dick. The government closed its case last evening. At this point the attorneys for the defense made a motion to direct a verdict in favor of the prison-The claim is made that at the moment the bills were split they ceased to be obligations of the government, and were as if destroyed entirely. Upon this theory the defense combats the claim of the government that money of the United States was mutilated.

The motion will be passed upon by Judge Tayler Wednesday morning. The point is so novel that the decision will be watched with much interest. At the time of the arrest of three prisoners a score or more of split bills were found which had not yet been pasted together. Other bills that had been pasted were found in the possesion of the prisoners.

The motion was overruled, and the trial proceeded yesterday.

FRANCIS B. LOOMIS

Secretary Taft Refuses to Discuss Charges Against Him.

Washington D. C., April 25 .- Acting Secretary of State Taft declined this afternoon to discuss in any of its phases, the charges that have been circulating in Venezuela that Assistant Secretary of State Francis B. Loomis, of Ohio, had accepted bribe money And in case you need a pair of shoes from the New York & Bermudez Asphalt Co., while he was acting as United States minister to Caracas, He said the case was in the hands of the president.

Assistant Secretary Loomis is expected home tonight from Connecticut where he has been in attendance upon the funeral of Senator Platt.

Stories reflecting somewhat upon Mr. Loomis have been more or less rife here since the arrival a month ago of Jose De Jesus Paul, the personal representative of President Castro.

In addition to unofficially suggesting to the state department that Minister Bowen's recall would aid in the reopening of negotations of pending claims, Paul attempted to give wide publicity to the charges abainst Loomis but no dependence was placed in them.

These facts were in the possession of the president before he left on his hunting trip. The knowledge that sharp differences between Castro and Mr. Loomis caused the latter's recall, discredited the charges. They are still regarded with grave suspicion.
